HIGH PRESSURE GAUGE

Model BR300HP
High Pressure Gauge

MODEL BR300HP

FEATURES:

- Built-in Vibration Free Movement (VFM)
- NACE MR0175 Compliant
- Internal Overpressure Stops
- Helium Leak Tested
- Blow-out Back Disc

SPECIFICATIONS:

- Dial Sizes: 4", 4½" & 6"
- Case: 304 SS
- Socket: 316L SS
- Tube: 316L SS
- Movement: 316L SS
- Accuracy: 1% Full Scale
- Dial: White Aluminum
- Window: Safety Glass
- Process Temperature: 212 °F/100 °C
- Operating Pressure Range: 75% of Scale
- Overpressure Limit: 125% of Max Scale
- Range: 20,000 PSI to 50,000 PSI

PRODUCT OVERVIEW:

Used in applications for Oil & Gas and Process where extremely high pressure measurement is required. This gauge can be used to monitor pressure up to 50,000 PSI.
